031/003

This e-mail is to document a phone conversation with Dan Proctor at the Deer Trail Mine (m/031/003).

About 1:30 pm on August 28, 2002, I received a phone call from Dan indicating that there was a wildfire near the Deer Trail Mine. Fire conditions have changed to the extent that the Forest Service told Dan that if he wanted to protect his buildings, he would have a couple hours that he could get in and build a fire line. Dan was concerned that he would need to modify his permit and bond before he did this.

Mr. Proctor was told that given the emergency nature of the situation to go ahead and do what he needed to protect his facilities.
